

**Assessment of patient understanding of orthostatic hypotension education. Ask the following questions and listen to patient responses:**

**What is orthostatic hypotension?**

**Is orthostatic hypotension life-threatening?**

**What do I need to do?**

**How is orthostatic hypotension treated?**

**What causes orthostatic hypotension?**

**Why is it important for me to do this?**

**Also ask the patient:**

**Does the orthostatic handout answer all of your questions about the diagnosis?**

**Do you have any suggestions about how to make the handout better?**
