

Survey Results

The respondents were asked to rate the project on a sliding scale for questions 1-8, with free response for questions 9 & 10. All respondents have previously taken PHYT 880.

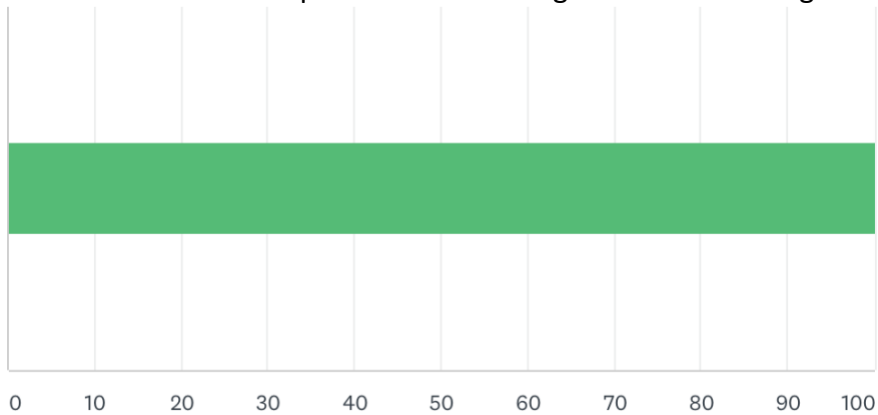

1. To what extent was the voice thread purpose communicated clearly?

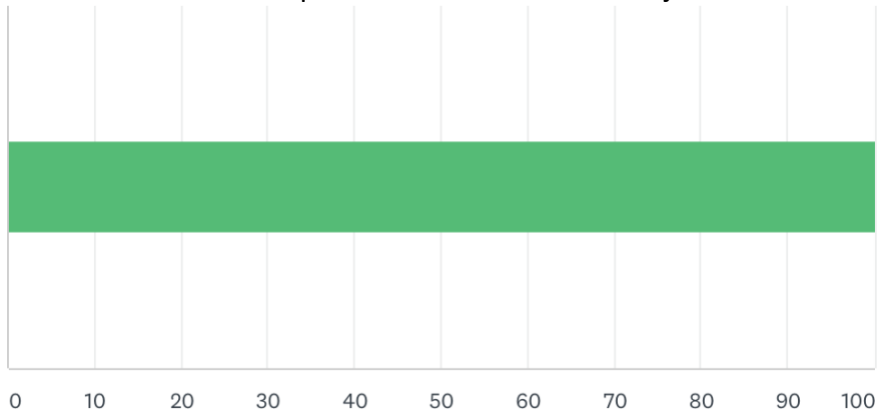

2. To what extent was the voice thread organized and easy to follow?

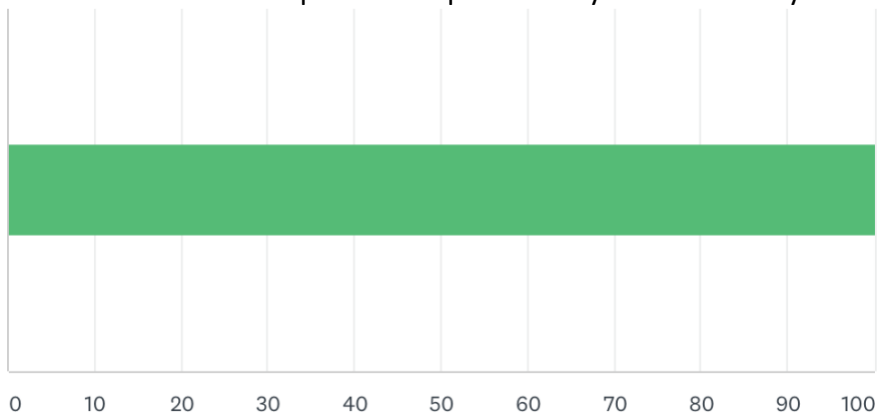

3. To what extent did the presenter exhibit a good understanding of topic?

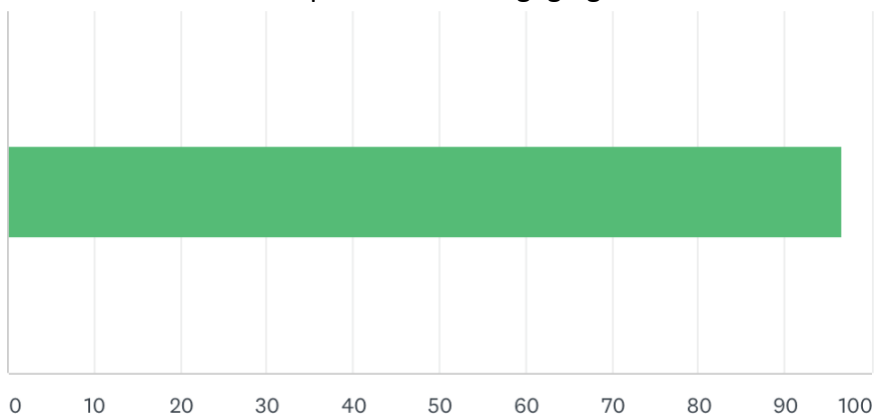

4. To what extent did the presenter address all the objectives?

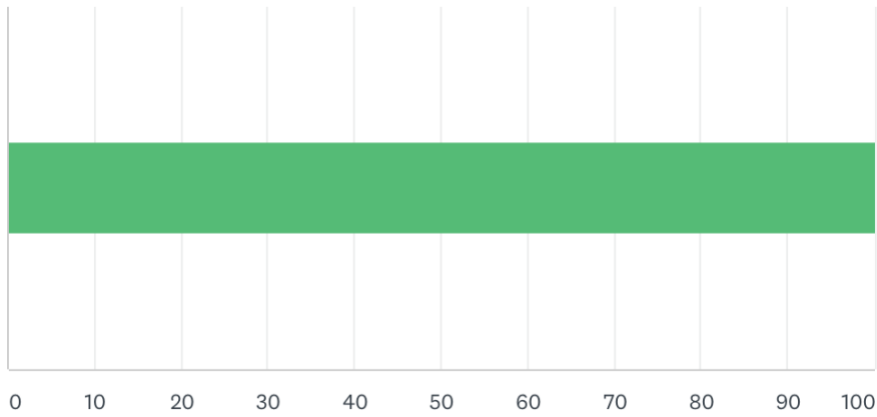

5. To what extent did the presenter speak clearly and effectively?

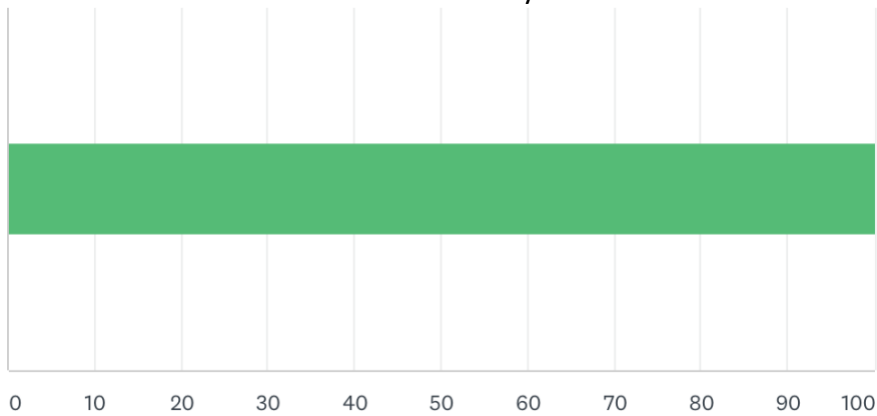

6. To what extent was the presentation engaging?

7. To what extent was the presentation informative and evidence-based?

8. To what extent was the material clinically relevant?

9. What did you like most about the presentation?

- Clinical relevance, applicability to practice
- Flow
- Visual aids and video

10. What areas might you suggest for improvement not listed above?

- Camera "wonky" at times
